

Md. Moynul Islam

Junior MERN Stack Developer

mdmoynulislam.dev@gmail.com | +880 1746-568176 | Rangpur, Bangladesh | [Portfolio](#) | [GitHub](#) | [linkedin](#)

Career Objective

Motivated Junior MERN Stack Developer skilled in React.js, Next.js, Node.js, and MongoDB. Passionate about building responsive and scalable web applications through self-driven projects. Currently pursuing Diploma in Computer Technology and eager to contribute to a professional development team.

Technical Skills

- **Frontend Technologies:** React.js, Next.js, HTML5, CSS3
- **Backend & Authentication:** Node.js, Express.js
- **Database:** MongoDB
- **Programming Languages:** JavaScript (ES6+)
- **UI & Styling:** Tailwind CSS, DaisyUI, HeroUI
- **Tools & Version Control:** Git, GitHub, VS Code, Figma, Penpot
- **Deployment & Platforms:** Vercel, Netlify, GitHub Pages
- **AI Workflow:** ChatGPT, Gemini, GitHub Copilot, Cursor, Antigravity, prompt engineering, AI-assisted debugging, README writing, test-case generation
- **Soft Skills:** Problem-solving, self-learning, technical documentation, team communication, feedback handling, deadline ownership, and recruiter-ready project presentation.

Projects

SportNest — Full-Stack Sports Booking Platform

[Live Demo](#) | [Frontend](#) | [Backend](#)

Core Tech: **Next.js, Node.js, MongoDB, Tailwind CSS, HeroUI**

A full-stack sports facility booking platform where users can browse, book slots and facility owners can manage their venues seamlessly

- Engineered a secure sports slot booking system with JWT-protected authentication
- Developed dynamic venue management with server-side CRUD via Node.js and MongoDB
- Implemented fully responsive UI with HeroUI and Tailwind CSS deployed on Vercel

QurbaniHat Livestock Booking Platform

[Live Demo](#) | [GitHub](#)

Core Tech: **Next.js, Better Auth, Tailwind CSS, DaisyUI, JavaScript (ES6+)**

A frontend-driven livestock marketplace where users can browse, filter and book animals for Qurbani with secure authentication.

- Engineered a real-time livestock marketplace with dynamic client-side filtering
- Developed secure authentication and protected routes via Better Auth
- Implemented responsive UI with instant category and price filtering deployed on Vercel

Keen Keeper Smart Task Management Platform

[Live Demo](#) | [GitHub](#)

Core Tech: **Next.js, Tailwind CSS, DaisyUI, JavaScript (ES6+)**

A smart productivity platform where users can create, organize and track their daily tasks efficiently through a clean and responsive interface.

- Developed an intuitive task management interface with static data and smooth UI interactions
- Engineered dynamic task listing and filtering with seamless client-side state management
- Implemented fully responsive interface with Next.js, Tailwind CSS and DaisyUI

Education

Diploma in Engineering (Computer Technology) | Rangpur Polytechnic Institute

Duration: 2023 – Present (Expected Graduation: 2027)

Programming Hero — Web Development Course

Language

- **Bangla** (Native)
- **English** (Professional Working Proficiency)
